

# BAUM D1T Single Spindle Drill

The BAUM D1T Drill provides economical drilling in a compact space. The manually operated drilling head is powered by an electric motor. The unique table design incorporates a sliding, moveable table with preset stops to provide consistent repeatable drilling of standard hole patterns. Standard hole patterns include 2-hole and 3-hole ring binder requirements. The BAUM D1T uses the exclusive BAUM drill bit system that does not require tools to insert or remove the drill bits.

## Specifications include:

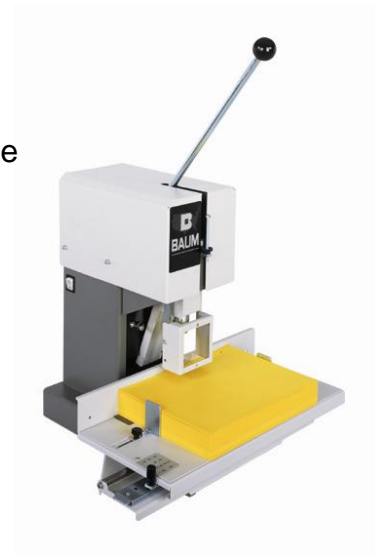

- Maximum lift capacity: 2 in (5cm)
- Maximum distance from center of hole to back gauge: 1.10 in (2.8cm)
- Maximum distance from center to center of hole using table: 11.38 in (28.9cm)
- Drill bit sizes available: 1/8 to 1/2 in dia. (3.1 to 12.7mm)
- Electrical requirements: 110/1/60

## Features include:

- Moveable table with preset hole patterns
- Chip removal drawer from front of drill underneath table
- No tools required to install or remove bits

## Accessories available include:

- Teflon coated drill bits
