

BAUM Flexifeed Deep Pile Feeder

The BAUM Flexifeed Deep Pile Feeder is another innovative design that is part of the modular concept of the Flexifold product series. This rugged feeder can be adapted to new or existing BAUM Flexifold 1st station parallel folders. The Flexifeed provides the capability of longer production runs just like the large BAUM floor model folders. The Flexifeed also includes a register table to provide greater accuracy than a standard tabletop folder. The Flexifeed module is another unique product that allows the folder to grow with the customer as the folding volume grows.

Specifications include:

- Maximum sheet size 14 x 20in.(35.6 x 50.8cm))
- Minimum sheet width 4 x 6 in (10.16x15.24cm)
