

# BAUM Flexifold 2<sup>nd</sup> Station 8-page Folder

The BAUM Flexifold 2<sup>nd</sup> station 8-page right angle folder offers more folding capability for more than just right angle folding applications. The robust designed unit can be added to the BAUM Flexifold 1<sup>st</sup> station parallel fold unit to perform right angle cross folds. The BAUM Flexifold 2<sup>nd</sup> station can also be placed in tandem, in a straight line, to perform more complex roll and accordion folds when more parallel folds are needed that the 1<sup>st</sup> station folder cannot provide.

## Specifications include:
