BAUM 714XLT FOLDER GLUERS

At Graph Expo, Baum introduced the 714XLT-2C, 4C, 4Z & 8Z Gluing systems. These offer a unique self-mailer solution for compact and affordable folding & gluing to produce multiple self-mailer impositions.

These complete folder/gluer machines use the durable Baum 714XLT Ultrafold air/vacuum feed folder combined with the easy to use and maintain GMS Microglue control and glue head system. These systems are affordable and use much less floor space than other self-mailer solutions

There are four models available, the 714XLT- 2C, 4C, 4Z and the 714XLT- 8Z

One of the unique features being offered is the capability to create "Z" and Double Parallel self-mailers in just one pass complete with glue on three sides and perforations on two ends parallel to each other.

For more information about this new unique product from Baum contact your local Baum dealer or call Baum sales at 800-543-6107.
